## ABSTRACT

Data are presented on all earned degrees conferred by degree-granting institutions in the aggregate United States. Primarily, this information provides a benchmark for reporting the trained manpower pool in discipline specialities, by training level, and for eight selected professions. The data also fulfills several needs of various state and federal legislative and executive agencies. The data were collected from the survey instrument "Degrees and Other Formal Awards Conferred" for the 11th annual Higher Education General Information Survey (HEGIS) conducted by the National Center for Education Statistics. Data on baccalaureate and higher degrees are presented in tables that show the numbers of degrees granted by level and degree, institutional control and level, sex of recipient, state, and discipline division, and specialty. Comparative data for 1971-72 are included, and parts A and B of the survey form are appended. (SW)

Statistics

## HIGHLIGHTS

1. The total number of bachelor's and higher degrees conferred in 1975-76 (1,344,581) was 2.2 percent higher than the previous year's total (1,315,659), a reversal of the small decline observed in that year. The relative changes, by level of degree and by sex, from 1974-75 to 1975-76 were:

|                              | Percent change |       |
|------------------------------|----------------|-------|
|                              | Men            | Women |
| All levels . . . . .         | 1.2            | 3.5   |
| Bachelor's . . . . .         | Less than 0.05 | 0.6   |
| First-professional . . . . . | 8.1            | 40.1  |
| Master's . . . . .           | 3.5            | 10.4  |
| Doctor's . . . . .           | -2.0           | 7.4   |

Women showed larger percent increases at all levels than did men—the largest (40.2 percent) for first-professional degrees. The only decline occurred at the doctoral level for men (-2.0 percent); women showed a 7.4 percent increase at the same level.

2. The percentage of bachelor's and higher degrees awarded to women continued to increase within each level of degree:

|                              | Percent of total bachelor's and higher degrees |         |
|------------------------------|------------------------------------------------|---------|
|                              | 1974-75                                        | 1975-76 |
| All levels . . . . .         | 43                                             | 44      |
| Bachelor's . . . . .         | 45                                             | 46      |
| First-professional . . . . . | 12                                             | 16      |
| Master's . . . . .           | 45                                             | 46      |
| Doctor's . . . . .           | 21                                             | 23      |

3. The percentage of bachelor's and higher degrees conferred at each level by publicly controlled institutional units, as a percent of total public and private combined, either remained the same or declined:

|                              | Percent of total bachelor's and higher degrees |         |
|------------------------------|------------------------------------------------|---------|
|                              | 1974-75                                        | 1975-76 |
| All levels . . . . .         | 67                                             | 67      |
| Bachelor's . . . . .         | 69                                             | 69      |
| First-professional . . . . . | 42                                             | 41      |
| Master's . . . . .           | 66                                             | 66      |
| Doctor's . . . . .           | 65                                             | 64      |

4. As in the previous year, the three discipline divisions with the largest number of bachelor's degrees conferred in 1975-76 remained the same. They were:

|                                   | Number  | Percent of total bachelor's degrees |
|-----------------------------------|---------|-------------------------------------|
| Education . . . . .               | 156,528 | 17                                  |
| Business and management . . . . . | 145,035 | 16                                  |
| Social sciences . . . . .         | 127,936 | 14                                  |

5. The three discipline divisions with the largest numbers of master's degrees awarded in 1975-76 had one change: social sciences, one of the top three in recent years, was replaced by public affairs and services. They were:

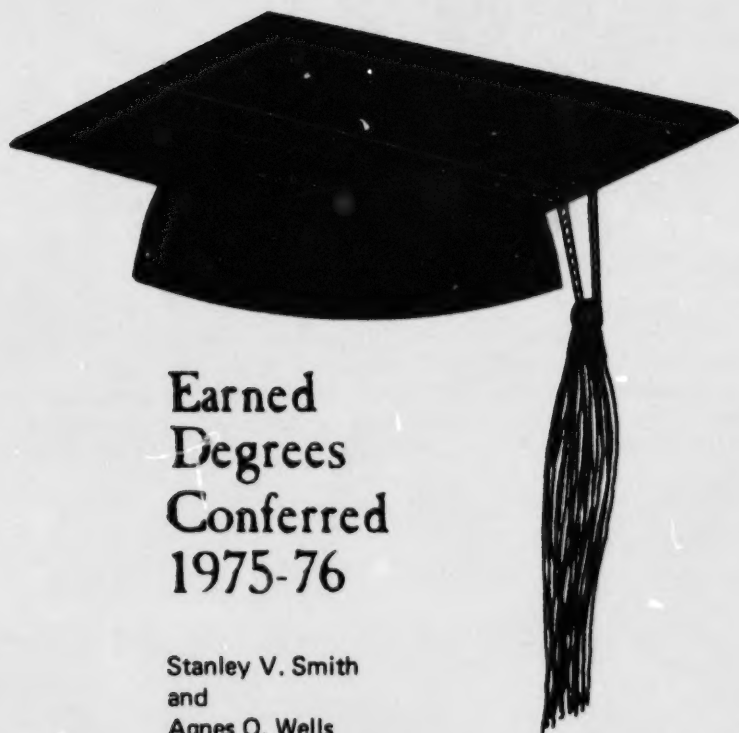

|                                     | Number  | Percent of total master's degrees |
|-------------------------------------|---------|-----------------------------------|
| Education . . . . .                 | 128,410 | 41                                |
| Business and management . . . . .   | 42,728  | 14                                |
| Public affairs & services . . . . . | 17,333  | 6                                 |

6. As in the previous year, the three discipline divisions with the largest number of doctor's degrees awarded remained the same. They were:

|                             | Number | Percent of total doctor's degrees |
|-----------------------------|--------|-----------------------------------|
| Education . . . . .         | 7,769  | 23                                |
| Social sciences . . . . .   | 4,160  | 12                                |
| Physical sciences . . . . . | 3,433  | 10                                |

7. In terms of specialties within the discipline divisions, by level of degree, the highest numbers of degrees were in:

|                                                           | Number | Percent of total within each level |
|-----------------------------------------------------------|--------|------------------------------------|
| Bachelor's—elementary education . . . . .                 | 60,892 | 6                                  |
| First-professional—law . . . . .                          | 32,535 | 52                                 |
| Master's—business management and administration . . . . . | 23,360 | 7                                  |
| Doctor's—psychology, general . . . . .                    | 2,047  | 6                                  |

## FOREWORD

Data on earned degrees conferred in the United States—a widely used measure of output of higher education at a specific chronological point—are presented in this publication. The data are collected from one survey instrument ("Degrees and Other Formal Awards Conferred," covering the period July 1, 1975, through June 30, 1976) from the 11th annual Higher Education General Information Survey (HEGIS) conducted by the National Center for Education Statistics (NCES).

Data on baccalaureate and higher degrees are presented in tables; detail tables show the numbers of degrees granted by level of degree, institutional control and level, sex of recipient, State, and discipline division and specialty. Awards below the baccalaureate level are soon to be published in a separate report, *Associate Degrees and Other Formal Awards Below the Baccalaureate, 1975-76, Summary Data*. A subsequent publication will present data on racial/ethnic categories.

Cooperation of college and university officials made possible a response rate of 100 percent for all institutional units operating at the time of the survey. Data for one institution (its records were inaccessible) had to be imputed (see page 2).

The continued efforts and interest of the survey respondents and the State coordinators are deeply appreciated.

This survey was initiated and carried out while Dr. Marjorie Q. Chandler was Acting Chief of the University and College Surveys and Studies Branch. (Dr. Chandler is now Acting Director of the Division of Multilevel Education Statistics.)

Rolf M. Wufsberg, Acting Director  
Division of Postsecondary and  
Vocational Education Statistics

Eugene E. Hixson, Acting Chief  
University and College Surveys  
and Studies Branch

## **ACKNOWLEDGMENTS**

Reports based on various portions of the Higher Education General Information Survey (HEGIS) were made possible by the cooperative endeavors of many individuals in the National Center for Education Statistics (NCES). For the present report, the following individual made contributions of particular note:

Geneva C. Davis, statistical assistant, maintained the control logs and did much of the checking of tables.

## PURPOSE OF THE SURVEY

Reporting one widely used measure of higher education output at a specific chronological point, *Earned Degrees Conferred* includes, and portrays distribution of, all degrees (except honorary) granted by all institutions in the aggregate United States identified as degree granting by the *Education Directory, Higher Education*. Primarily, this information provides a benchmark for reporting the trained manpower pool in discipline specialties, by training level, and for eight selected professions. Beyond this, the data fulfill several needs of various State and Federal legislative and executive agencies.

This edition of (*Earned Degrees Conferred*) represents the 11th year in the HEGIS survey series and is the 5th report to use the taxonomy adopted in 1970-71 for the 6th HEGIS. Thus, all data for the survey years 1970-71 through 1975-76 are directly comparable and applicable to studies of (1) trends in the number of degrees granted in the discipline divisions and specialties, (2) distributions by sex, State, or other area, and (3) institutional control and level. Other groups that find this information valuable include discipline-oriented professional associations, accrediting bodies, government agencies that fund specific disciplines, researchers and planners in postsecondary education, and employers offering employment without sex bias.

## SURVEY ORGANIZATION AND METHODOLOGY

### DEGREE DEFINITIONS

The survey requests data for higher education degrees which are defined as follows:

**Bachelor's**—requires successful completion of at least 4 but not more than 5 years of academic work beyond high school. Includes degrees conferred in cooperative work-study plans which provide for alternate class attendance and employment in business, industry, or government.

**Master's**—requires successful completion of at least 1 year and sometimes 2 years of work beyond the bachelor's degree. Includes the degree of Education Specialist.

**Doctor's**—Includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Ph.D. degrees in any field.

**Other Degree or Certificate**—requires completion of a program intermediate between the master's and

doctor's degrees which is recognized by the awarding of a degree or certificate.

**First-Professional Degree**—a degree that (a) signifies completion of the academic requirements to begin practice in the profession, (b) is based on a program which requires at least 2 years of college work prior to entrance, and (c) requires a total of at least 6 academic years of college work, including prior required college work plus the length of the professional curriculum.

### SURVEY UNIVERSE

This report is based on data furnished by 1,857 institutional units. These constitute all of the institutional units in the National Center for Education Statistics' universe that could be identified as offering bachelor's or higher degrees during the period July 1, 1975 to June 30, 1976. The survey universe is based on the list of institutional units included in the *Education Directory, 1974-75, Higher Education* (Publication No. NCES 75-119) with such changes as were known to NCES in fall 1976. Table A shows the number of institutional units included in this survey, by control and level.

**Table A.—Number of institutional units included in the 1975-76 survey of earned degrees, by control and level**

| Level of institutional unit   | Total | Control |         |
|-------------------------------|-------|---------|---------|
|                               |       | Public  | Private |
| All institutional units . . . | 1,857 | 554     | 1,303   |
| Universities . . . . .        | 161   | 96      | 65      |
| Other 4-year . . . . .        | 1,696 | 458     | 1,238   |

In addition to these 1,857 institutional units, there were 49 other units that, although offering instruction at the bachelor's or higher level, were classified as non-degree granting. They were not surveyed for degree data.

### MAJOR CLASSIFICATIONS OF DATA

**Type of Control**—Institutional units were identified as "public" or "private" according to their classification in the *Education Directory, Higher Education*.

**Level of Institutions**—Selected tables in the report group institutional units into two categories: "universities" and "other 4-year institutions." Classified as universities are units that give considerable stress to graduate instruction, confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other units offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year" category.

**Discipline Divisions and Specialties** (major fields of study)—The classification of discipline divisions and specialties relies on *A Taxonomy of Instructional Programs in Higher Education*.<sup>\*</sup> This was adopted by HEGIS in 1970 and is maintained to provide comparability of data on a continuing basis.

<sup>\*</sup>U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Education Statistics. *A Taxonomy of Instructional Programs in Higher Education*, by Robert A. Huff and Majorie O. Chandler, OE50064-70. Washington, D.C.: U.S. Government Printing Office, 1970.

### DATA COLLECTION

A copy of the survey form and accompanying instructions and definitions (see Appendix) was addressed to the president of each institutional unit listed in the survey universe or, in more than one-half of the States, to a State coordinator who supplied the data from information submitted by the institutional units or coordinated the data collection with all or selected institutional units in the State. Followup letters and phone calls were made to State coordinators or institutional officials who had not reported the data within a reasonable period of time after the due date of August 15, 1976.

### DATA VERIFICATION

Three methods were utilized to verify the reasonableness of data submitted by each institutional unit:

1. A computer check providing a field-by-field comparison with the data submitted for the previous year was made to determine whether the data varied by more than a predetermined percentage from the previous year's submission. The acceptable differences were based on the order of magnitude of the data field sizes: the greater the number of degrees, the lower the percentage of difference permitted.

2. Survey forms containing data items rejected by the computer check were examined visually by survey personnel to determine whether footnotes, explanatory notes, or readily recognizable human errors accounted for the apparent discrepancies. Where necessary, catalogs of the institutions were consulted for institutional offerings.

3. Finally, the remaining discrepancies were resolved by correspondence or telephone contact with State coordinators and institutional representatives.

Internal checks for consistency included the checking of accumulated totals against subtotals obtained from appropriate subsets of the data.

### DATA IMPUTATION

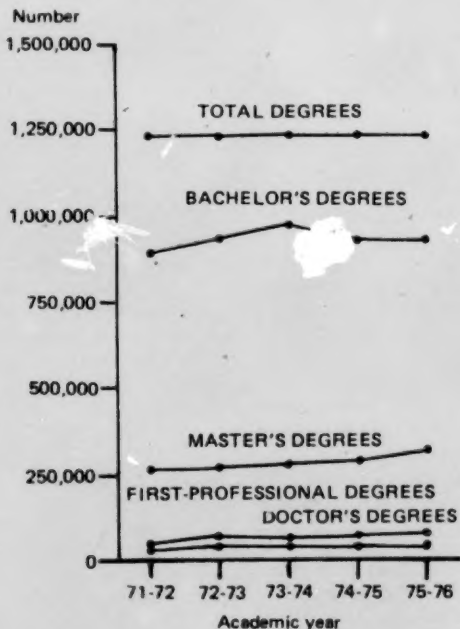

Degree data for one institutional unit had to be imputed. It was an "other 4-year" unit which had closed, and its records were inaccessible. The total number of degrees awarded was imputed from the data received in *Opening Fall Enrollment, Fall 1975*. The distribution of degrees by field was imputed from this total and from the distribution of degrees awarded in 1974-75 by that institutional unit. Only 3 first-professional and 23 master's degrees, for a total of 26 degrees, were involved, which was 0.002 percent of all degrees awarded in the nation.

## CURRENT DATA AND RECENT TRENDS

This section of the report highlights some of the areas of change as well as some of the areas of stability respecting the number of earned degrees conferred by institutions of higher education in the aggregate United States in the academic year 1975-76.

The total number of bachelor's, first-professional, master's, and doctor's degrees conferred by institutions of higher education in 1975-76 (1,344,581) was 2.2 percent higher than the previous year's total (1,315,659), a reversal of the small decline observed in that year. (see table 1). This table also shows the number and percent change in these degrees conferred, by level of degree and sex of recipient, for each academic year from 1971-72 through 1975-76. The total number of these degrees increased each year, except for the slight decline of -0.4 percent in 1974-75, which resulted from the decline of 4.2 percent in the number of bachelor's degrees awarded to men, the slight decline of 0.1 percent in the number of bachelor's degrees awarded to women, and the decline of 2.0 percent in the number of doctor's degrees awarded to men in that year. Chart 1 shows the number of degrees awarded from 1971-72 through 1975-76, by level of degree.

Chart 1.-- Number of degrees conferred, by level of degree, 1971-72 to 1975-76

Considering the percent changes, by level of degree and by sex, from 1974-75 to 1975-76 (see table 1 and table B) it can be seen that women showed larger percent increases at all levels than did men - the largest (40.1 percent) for first-professional degrees. The only decline occurred at the doctoral level for men (-2.0 percent); women showed a 7.4 percent increase at that level.

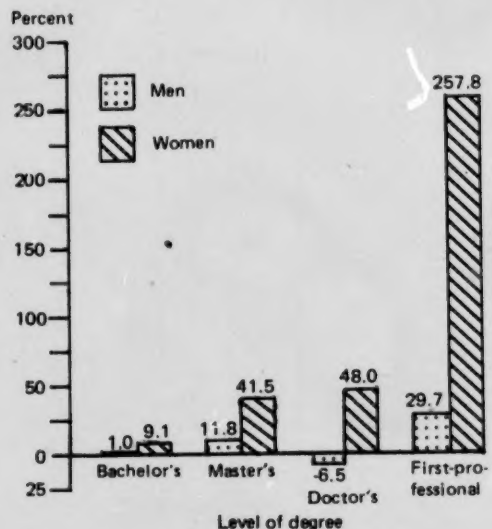

Table B.--Percent change in number of degrees conferred in 1975-76 from 1974-75, by sex of recipient and level of degree

| Level of degree                      | Percent change |      |       |
|--------------------------------------|----------------|------|-------|
|                                      | Total          | Men  | Women |
| All levels . . . . .                 | 2.2            | 1.2  | 3.5   |
| Bachelor's degrees . . . . .         | 0.3            | (*)  | 0.6   |
| First-professional degrees . . . . . | 12.1           | 8.1  | 40.1  |
| Master's degrees . . . . .           | 6.6            | 3.5  | 10.4  |
| Doctor's degrees . . . . .           | (*)            | -2.0 | 7.4   |

\*Less than 0.05 percent.

The percent of women receiving degrees increased significantly at all levels over the past few years (see table 1 and chart 2).

Chart 2.--Percent change in number of degrees conferred in 1975-76 from 1971-72, by sex of recipient and level of degree

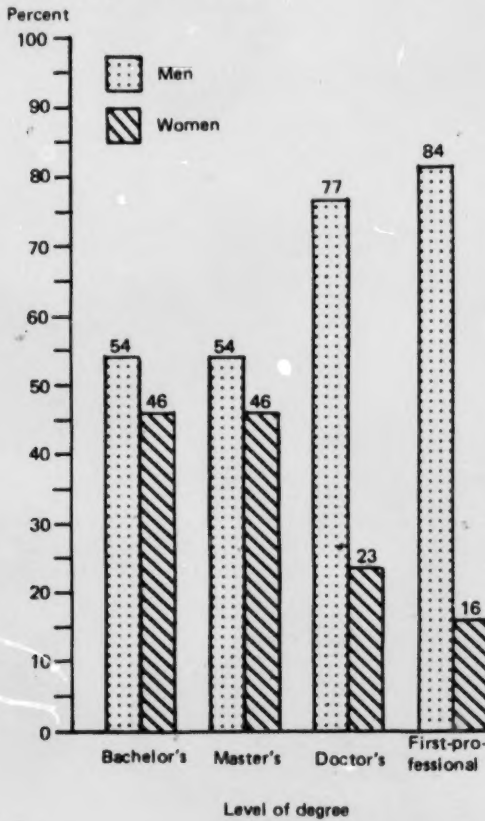

However, even though women had higher rates of increase at all levels of degrees than men, they were still only approaching parity with men at the bachelor's and master's levels, and were still significantly lagging men in the number and percent of degrees awarded at the first-professional and doctor's levels (see tables 1 and C and chart 3).

Table C.--Percent of degrees conferred within each level of degree, by sex of recipient and level of degree, 1974-75 and 1975-76

| Level of degree             | Percent within each level |       |         |       |
|-----------------------------|---------------------------|-------|---------|-------|
|                             | 1974-75                   |       | 1975-76 |       |
|                             | Men                       | Women | Men     | Women |
| All levels . . . . .        | 57                        | 43    | 56      | 44    |
| Bachelor's . . . . .        | 55                        | 45    | 54      | 46    |
| First-professional. . . . . | 88                        | 12    | 84      | 16    |
| Master's. . . . .           | 55                        | 45    | 54      | 46    |
| Doctor's . . . . .          | 79                        | 21    | 77      | 23    |

Chart 3.--Percentage of degrees conferred, by sex of recipient and level of degree, 1975-76

The number of degrees conferred in 1975-76, by level of degree and sex of recipient, and by control and level of institution, are shown in table 2. Comparison of the 1975-76 data with those of the previous year shows that the percent of degrees conferred at each level by *publicly* controlled institutional units, as a percent of total public and private combined, either remained the same or declined. (see table D).

Table D.--Percent of degrees conferred by *publicly* controlled institutional units, by level of degree, 1974-75 and 1975-76

| Level of degree                      | Percent within each level |         |
|--------------------------------------|---------------------------|---------|
|                                      | 1974-75                   | 1975-76 |
| All levels . . . . .                 | 67                        | 67      |
| Bachelor's degrees . . . . .         | 69                        | 69      |
| First-professional degrees . . . . . | 42                        | 41      |
| Master's degrees . . . . .           | 66                        | 66      |
| Doctor's degrees . . . . .           | 65                        | 64      |

The States with the highest number of bachelor's and higher degrees conferred by *publicly* controlled institutions of higher education in 1975-76 were California (85,428), New York (59,502), and Texas (54,712), (see table 3A). The States with the highest number of bachelor's and higher degrees conferred by *privately* controlled institutions of higher education in 1975-76 were New York (75,016), California (40,330), Massachusetts (39,299), and Pennsylvania (35,236) (see table 3B). When the number of such degrees conferred by *privately* controlled institutions is considered as a percentage of the total number of such degrees awarded, public and private combined, the range is from 0 percent (Wyoming, Canal Zone, Guam, and the Virgin Islands) to highs of 94 percent (District of Columbia), 69 percent (Massachusetts), 56 percent (New York), and 50 percent (Vermont) (see table E).

As in the previous year, the three discipline divisions with the largest numbers of bachelor's degrees conferred in 1975-76 were education, business and management, and social sciences (see tables 4 and 7). For each of these discipline divisions the number and percent of bachelor's degrees are shown in table F for both 1974-75 and 1975-76.

**Table E.—Percent of total number of bachelor's, first-professional, master's, and doctor's degrees conferred by privately controlled institutional units, by State or other area, 1975-76**

| State or other area            | Percent |
|--------------------------------|---------|

**Table F.—Number and percent of bachelor's degrees conferred in the three largest discipline divisions, 1974-75 and 1975-76**

| Discipline division         | Bachelor's degrees awarded |         |                                   |         |
|-----------------------------|----------------------------|---------|-----------------------------------|---------|
|                             | Number                     |         | Percent of all bachelor's degrees |         |
|                             | 1974-75                    | 1975-76 | 1974-75                           | 1975-76 |
| Education . . .             | 168,749                    | 156,528 | 18                                | 17      |
| Business and management . . | 135,455                    | 145,035 | 15                                | 16      |
| Social sciences             | 136,773                    | 127,936 | 15                                | 14      |

The largest number of master's degrees awarded in academic year 1975-76 occurred in education, business and management, and public affairs and services (see tables 4 and 8). Social sciences, one of the top three in recent years, was replaced for the first time by public affairs and services. The number and percent of master's degrees for each of these discipline divisions are shown in table G for both 1974-75 and 1975-76.

**Table G.—Number and percent of master's degrees conferred in the three largest discipline divisions, 1974-75 and 1975-76**

| Discipline division             | Master's degrees awarded |         |                                 |         |
|---------------------------------|--------------------------|---------|---------------------------------|---------|
|                                 | Number                   |         | Percent of all master's degrees |         |
|                                 | 1974-75                  | 1975-76 | 1974-75                         | 1975-76 |
| Education . . .                 | 120,233                  | 128,410 | 41                              | 41      |
| Business and management . .     | 36,450                   | 42,728  | 12                              | 14      |
| Public affairs and services . . | 15,505                   | 17,333  | 5                               | 6       |

The three areas with the largest number of doctor's degrees awarded in 1975-76 were education, social sciences, and physical sciences, as in the previous year (see tables 4 and 9). The number and percent of doctor's degrees for each of these discipline divisions are shown in table H for both 1974-75 and 1975-76.

**Table H.—Number and percent of doctor's degrees conferred in the three largest discipline divisions, 1974-75 and 1975-76**

| Discipline<br>division | Doctor's degrees awarded |         |                                    |         |
|------------------------|--------------------------|---------|------------------------------------|---------|
|                        | Number                   |         | Percent of all<br>doctor's degrees |         |
|                        | 1974-75                  | 1975-76 | 1974-75                            | 1975-76 |
| Education . . . .      | 7,443                    | 7,769   | 22                                 | 23      |
| Social sciences .      | 4,209                    | 4,160   | 12                                 | 12      |
| Physical sciences      | 3,628                    | 3,433   | 11                                 | 10      |

A more detailed presentation of bachelor's, master's, and doctor's degrees conferred by institutions of higher education, by sex of recipient, for academic year 1975-76, is shown in table 5, wherein the data are given for each discipline specialty as well as each discipline division, by control of institution.

Information is presented for each discipline specialty for first-professional degrees, by sex of recipient and control of institution, for 1975-76, in table 6. The number of discipline specialties for which the earned degrees conferred data were collected was expanded to include pharmacy and chiropractic.

As noted earlier, the most dramatic rise over the previous year occurred at the first-professional level, especially for women. The number of first-professional degrees awarded in 1975-76, and the percentage increase over the previous year, are shown by sex and by discipline specialty in table 1.

**Table 1.—Number of first-professional degrees conferred, 1975-76, and percent increase over 1974-75, by sex and by discipline specialty**

| Specialty                  | First-Professional Degrees Awarded |       |                                                |       |
|----------------------------|------------------------------------|-------|------------------------------------------------|-------|
|                            | Number<br>in<br>1975-76            |       | Percent increase<br>1975-76<br>over<br>1974-75 |       |
|                            | Men                                | Women | Men                                            | Women |
|                            |                                    |       |                                                |       |
| Dentistry                  | 5,229                              | 249   | 12                                             | 67    |
| Medicine                   | 11,340                             | 2,200 | 4                                              | 33    |
| Optometry                  | 900                                | 75    | 20                                             | 88    |

| Podiatry                   | 417                                | 11    | 20                                             | 175   |
| Veterinary Medicine        | 1,255                              | 277   | 5                                              | 23    |
| Law                        | 26,271                             | 6,264 | 5                                              | 41    |
| Theological<br>Professions | 5,273                              | 436   | 11                                             | 25    |

The number of intermediate degrees conferred by institutions of higher education is shown in table 11, by type of award and control and level of institution.

# PRESENTATION AND COMPARABILITY OF THE DATA

## TABLES

The eleven basic tables in this report for 1975-76 contain what the authors believe to be the most comprehensive and useful groupings of the data within the constraints of publication. The tables are comparable to, and use the formats of, reports of previous years.

Table 1 is a comparison of the number and percent change of degrees conferred, by level of degree for the five academic years from 1971-72 through 1975-76. Table 2 is a summary of the degrees conferred in 1975-76, by sex and level of degree, as well as by control and level of institution. Tables 3, 3A, and 3B show State data for each of the degree levels, by sex of student and by control of institution. Table 4 presents bachelor's, master's, and doctor's degrees awarded, by sex and by discipline divisions. Table 5 shows bachelor's, master's, and doctor's degrees awarded, by sex and by discipline specialty within each discipline division. Table 6 presents data on first-professional degrees conferred in twelve discipline specialties, by sex and control of institution.

Tables 7, 7A, and 7B present data on the number and percent change of bachelor's degrees conferred for the five academic years from 1971-72 through 1975-76, by sex and by discipline division. Tables 8, 8A, and 8B do the same for master's degrees, and tables 9, 9A and 9B do the same for doctor's degrees. Tables 10, 10A, and 10B show data on the number and percent change of first-professional degrees conferred for the five academic years 1971-72 through 1975-76, by sex and by discipline specialty. Table 11 summarizes intermediate degrees conferred in 1975-76, by control and level of institution.

## COMPARABILITY

In 1972 NCES began aggregating data by a method that groups institutional units by their level regardless of whether they are independent units or branches. This method was first used in the detail tables of *Earned Degrees Conferred, 1972-73 and 1973-74, Summary Data*. This means that earned degree data aggregated by level of institution prior to 1972-73 are not comparable to such data in the reports of 1972-73 and later. Only two tables in each of the recent summary reports are involved with this change: tables 2 and 11 in the current report; tables 2 and 7 in the report for 1974-75; and tables 102 and 107 in the report for 1972-73 and 1973-74.

Table J shows the comparability of the data in the detail tables in this report for 1975-76 with such tables in the reports for the preceding three years.

*Table J.—Comparability of data, detail tables, earned degrees conferred, summary data, 1975-76–1972-73 reports, by table number*

| Table number |         |         |         |
|--------------|---------|---------|---------|
| 1975-76      | 1974-75 | 1973-74 | 1972-73 |
| 1            | 1       | 1       | 1       |
| 2            | 2       | 102     | 102     |
| 3            | 3       | 3       | 3       |
| 3A           | 3A      | 3A      | 3A      |
| 3B           | 3B      | 3B      | 3B      |
| 4            | 4       | 4       | 4       |
| 5            | 5       | 5       | 5       |
| 6            | 6       | 6       | 6       |
| 7            | A       | —       | —       |
| 7A           | —       | —       | —       |
| 7B           | —       | —       | —       |
| 8            | B       | —       | —       |
| 8A           | —       | —       | —       |
| 8B           | —       | —       | —       |
| 9            | C       | —       | —       |
| 9A           | —       | —       | —       |
| 9B           | —       | —       | —       |
| 10           | —       | —       | —       |
| 10A          | —       | —       | —       |
| 10B          | —       | —       | —       |
| 11           | 7       | 107     | 107     |

Comparisons with data prior to 1970-71 must be made with extreme care. The new taxonomy introduced in 1970-71 involved extensive changes. Any such comparisons should be made by using the "translation table" contained in the taxonomy.

## ADDITIONAL INFORMATION

Additional information from this survey of earned degrees, 1975-76, is available in five forms:

(1) A copy of the computer tape containing the data for this survey may be purchased for \$94.00 per reel on 9-track 1600 BPI, or for \$120.00 per reel on 9-track 800 BPI. This file is a one-reel file. Tapes come with standard IBM label and odd parity in EBCDIC. The necessary documentation accompanies each tape delivery.

(2) The data on the computer tape mentioned above also are incorporated into the EDSTAT online educational information access system operated by NCES. This system, which can be entered through modestly priced keyboard terminals anywhere in the United States, permits comparison of earned degrees

for academic year 1975-76 with those for previous years, as well as relating them to data on finance, enrollment, and other institutional characteristics.

(3) Computer printouts are available listing selected earned degree items for individual institutions or groups of institutions; other special tabulations can be prepared on order. Users are charged at cost for printouts and special tabulations.

Inquiries for tapes, online access, or computer printouts should be addressed to:

EDSTAT  
National Center for Education Statistics  
400 Maryland Avenue, S.W.  
Washington, D.C. 20202

Or call (202) 245-8760.

(4) These data also may be purchased after January 1, 1978, in microfiche, from:

ERIC Document Reproduction Services  
P.O. Box #190  
Arlington, Virginia 22210.

(5) In addition to the collection of the number of earned degrees conferred, by institution, level of degree, discipline division, discipline specialty, and sex, data also were gathered on the racial/ethnic categories of degree recipients. Since the racial/ethnic data were not yet complete, they were not included in this summary. They will be presented in a report focused on the racial/ethnic characteristics of the earned degree recipients, by institution, that will be available early in 1978. The racial/ethnic data will be included on the computer tape, EDSTAT online system, and computer printouts described above.

**DETAILED TABLES**

TABLE 1.--BACHELOR'S AND HIGHER DEGREES CONFERRED IN INSTITUTIONS OF HIGHER EDUCATION, 2/ BY LEVEL OF DEGREE AND SEX OF STUDENT: AGGREGATE UNITED STATES, 1971-72 TO 1975-76 1/

1/ DATA FOR THE SIX SURVEY YEARS ARE BASED ON THE FOLLOWING NUMBERS OF INSTITUTIONS:

1971-72 1,773  
1972-73 1,776  
1973-74 1,809  
1974-75 1,820  
1975-76 1,857

2/ DOES NOT INCLUDE INTERMEDIATE DEGREES (SEE TABLE 11).

3/ PERCENTS HAVE BEEN ROUNDED TO THE NEAREST TENTH.

TABLE 2.--BACHELOR'S AND HIGHER DEGREES CONFERRED IN INSTITUTIONS OF HIGHER EDUCATION 1/ BY LEVEL OF DEGREE, SEX OF STUDENT, AND CONTROL AND LEVEL OF INSTITUTION: AGGREGATE UNITED STATES, 1975-76

1/ AN INTERMEDIATE DEGREE IS ANY RECOGNITION (DEGREE OR CERTIFICATE) FOR A PROGRAM INTERMEDIATE BETWEEN THE MASTER'S DEGREE AND THE DOCTOR'S DEGREE (PH.D., ED.D., ETC.), WHICH IN ESSENCE IS THE DOCTOR'S DEGREE WITHOUT THE DISSERTATION. FOR EXAMPLE, MASTER OF PHILOSOPHY, CANDIDATE IN PHILOSOPHY, DOCTOR OF ARTS, ETC.

# APPENDIX — REPRODUCTION OF SURVEY FORM, PARTS A AND B

INSTITUTION

1. INSTITUTION CODE NUMBER

## INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS, 1975-76

Only the 10 professions listed below should be reported in Part A. Within these professions, report first-professional degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria:

(1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 10 professions other than those specifically named in connection with those professions.

For each of the 10 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

### PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS (Requiring at least six years of study)

IS PART A APPLICABLE TO YOUR INSTITUTION? ☐ YES ☐ NO (If not applicable, return this page and discard pages 6 through 9.)

## INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

**1. TYPES OF DEGREES.** Report earned bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do not report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

**2. GROUPING OF DISCIPLINES.** The major fields of study to be reported here fall in the following discipline divisions:

|                                            |                                  |
|--------------------------------------------|----------------------------------|
| 0100 Agriculture and Natural Resources     | 1300 Home Economics              |
| 0200 Architecture and Environmental Design | 1400 Law                         |
| 0300 Area Studies                          | 1500 Letters                     |
| 0400 Biological Sciences                   | 1600 Library Science             |
|                                            | 1700 Mathematics                 |
| 0500 Business and Management               | 1800 Military Sciences           |
| 0600 Communications                        | 1900 Physical Sciences           |
| 0700 Computer and Information Sciences     | 2000 Psychology                  |
| 0800 Education                             | 2100 Public Affairs and Services |
| 0900 Engineering                           | 2200 Social Sciences             |
| 1000 Fine and Applied Arts                 | 2300 Theology                    |
| 1100 Foreign Languages                     | 4900 Interdisciplinary Studies   |
| 1200 Health Professions                    |                                  |

**3. SKIPPING INAPPLICABLE DISCIPLINES.** Skip those discipline divisions for which your institution does not grant degrees. Please indicate by circling the appropriate page number in the "contents" the discipline divisions in which your institution awarded degrees.

**4. NUMBER OF DEGREES.** Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1975 and June 30, 1976 (e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

### 5. DEGREE LEVELS.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) MASTER'S DEGREES. The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) (even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.) Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) DOCTORATE. The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. (In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.) Please report the doctor's degrees (except those included in Part A) in Columns (8) and (9) of the report-form.

(d) OTHER DEGREE OR CERTIFICATE. If your institution provides any recognition (degree or certificate) for a program intermediate between the master's degree and the doctor's degree (Ph.D., Ed.D., etc.) which in essence is the doctor's degree without the dissertation (for example, Master of Philosophy, Candidate in Philosophy, etc.) (do not include 6-year specialist degrees), please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B (after Item No. 9800). (Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.)

### 6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY

(a) Specific Classification. Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), NOT in Business and commerce, general (0501).

(b) Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) Majors of Students Prepared to Teach. The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, biology, or foreign languages, should be reported respectively in Letters, Biological Sciences, and Foreign Languages and NOT in Education. On the other hand, the degrees of students who have prepared to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1, Art education (0831), and Music education (0832).

(d) Split major. When a student graduates with a split major, report the degree in the area of greater specialization, if possible. If this is not possible, the degree should be reported in the discipline specialty closest to the combination. If a split major involves two languages, report it in 1101, Foreign languages, general. Similarly, within each of the other discipline divisions, if a split major involves two specialties within a division, the degree should be reported under the appropriate "general" specialty indicated under that discipline heading. For example, a major in history and political science should be reported under 2201, Social sciences, general. If the split major covers more than one discipline division, the degree should be reported in the area of greater specialization. DO NOT REPORT FACTIONS OF A DEGREE.

(e) Double majors. When a student graduates with a major in two discipline specialties, report the degree in the field in which the degree was awarded. If the student received two degrees, report only one—in the field of greater specialization, if possible.

(f) Unlisted Fields of Study. When classifying a specialty which does not seem to fit into the list, the institution has two choices: (a) the specialty can be listed by name under "other" if it represents an

unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties. Do NOT erase or change any titles of discipline specialties.

Discipline specialties are coded by number. Key punching is done according to code number and any manual name change would result in improper coding.

(g) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social sciences, general.

(h) Interdisciplinary Studies. The code in the 4900 group are for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported there. Specify the name of the interdisciplinary study when reporting in 4999.

(i) Before submission, please verify that the specialty subtotals (for examples, lines 22, 33, and 52, etc.) are the sum of the specified preceding lines for every column (columns (4) through (9)).

(j) No data should be entered in gray areas, such as that for code number 0899 on page 22.

NAME OF INSTITUTION

1. INSTITUTION CODE NUMBER

## EDUCATION (0800)

NOTE: Students who are prepared to teach an academic subject such as English, biology, and foreign languages should be reported as appropriate in Letters, Biological Sciences, and Foreign Languages, and not in Education.

Education specialist (6-year degree): Report in same columns as master's degrees, in appropriate discipline specialty.

Teaching of English as a foreign language: Report in 1508.

## PART B — BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES, 1975-76 — Continued

Do you provide any recognition (*degree or certificate*) for a program intermediate between the master's degree and the doctor's degree (*Ph.D., Ed.D., etc.*), which in essence is the doctor's degree without the dissertation? For example, Master of Philosophy, Candidate in Philosophy, etc.

(Do not include specialist degrees.) (Also, do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees.)

☐ YES ☐ NO If "YES", specify the name(s) of the degree(s) or certificate(s) and the number of students receiving them from July 1, 1975 to June 30, 1976.

| CODE<br>(1) | NAME OF DEGREE OR CERTIFICATE<br>(2)  | LINE NO.<br>(3) | NUMBER OF STUDENTS RECEIVING DEGREE OR CERTIFICATE |              |
